

Corporate Responsibility & Sustainability Apprenticeship

At TLC

We believe that Corporate Responsibility and Sustainability (CRS) aren't just concepts—they are essential practices that shape the future of business. Our CRS Practitioner Apprenticeship empowers senior managers and leaders to build a better, more sustainable tomorrow.

This program is more than a qualification; it's a journey to becoming an agent of change in a world that needs sustainable solutions.

Program Snapshot

Our apprenticeship covers a range of skills to equip future leaders:

Self-Awareness & Accountability

Strengthen your ability to lead with integrity and clarity.

Change & Project Management:

Effectively manage initiatives that drive impactful change.

Risk & Data Management:

Develop strategies for risk mitigation and data-driven decisions.

Leadership & Communication:

Enhance communication, stakeholder management, and team-building skills.

Learning Approach

Each apprentice benefits from:

On-Programme Training

In-depth sessions combining theory with practical application.

End-Point Assessment (EPA)

Portfolio, project, and professional discussion to assess skill mastery.

Community Events & Training

Real-world experience in leading community initiatives and training peers.

Funding Opportunities

TLC helps you explore available funding, so your investment in CRS yields the best value. Contact us to discuss funding options that make apprenticeships accessible for your business.
